Using Your Bluetooth Hands Free Kit

NOTE: Throughout this manual, "press" indicates pressing for less than 1 second. "Press and hold" indicates pressing for 2 seconds, unless otherwise indicated.

Power On/Off

The Bluetooth kit will automatically turn on when the vehicle's key is turned to the accessory position and will remain on until the vehicle's accessory power is turned off. After turning on, the Bluetooth kit will automatically search for phones it was paired with previously. Since multiple phones can be paired to the system, the connecting priority will be the last phone paired, followed by the phone used most frequently with the system and then the phone used second most frequently. If the Bluetooth kit has not been paired to a phone, pairing will automatically activate.

Make a Call

When connected to the Bluetooth kit, you may use your phone as normal to dial numbers or search your contacts list, or you can use Voice Dialing.

Voice Dialing

To activate voice dialing, press the ANSWER key on the Bluetooth keypad. The system will prompt you for a command. Clearly speak your command (for example, "call Shaun") The system will confirm the command and attempt to "call Shaun" .

End a Call

To end a call, press and hold the END key.

Answer a Call

During an incoming call, the vehicle's radio will be muted / turned off and the call will ring through the vehicle's speakers. To answer an incoming call, press the ANSWER key.

Ignore an Incoming Call

To ignore an incoming call, press and hold the END key for 2 seconds.

Redial the Last Number

To redial the last number, press and hold the ANSWER key for 2 seconds.

Adjust the Call Volume

During a call, you can adjust the volume up/down using the ANSWER key or END key. Each press raises or lowers the volume by 1 level. When the minimum or maximum volume is reached, the system will beep twice.

Transfer a Call

To transfer a call between Bluetooth hands free and normal phone operation, press and hold the ANSWER key on the Bluetooth keypad for 2 seconds.

Pairing

To activate phone pairing, press and hold the END key for 10 seconds. Next, activate pairing on the phone (refer to the phone's owners manual). When a pin code is requested during pairing, enter "1234" using the phone

Manual Search for Paired Phone

You can reconnect a previously paired phone using the manual search function. To activate manual search to locate and connect to your phone, press the ANSWER key.

Reset / Clear All Paired Phones

To permanently remove all paired phones from the Bluetooth kit, press and hold the END key for 15 seconds.

NOTE: Before re-activating phone pairing, you must first erase the original data from your mobile phone.
